GGG WIPER BLADES

BOHEMIA, NY

Gold Glass Group expands its product line with the introduction of its GGG Brand Premium Windshield Wiper Blades. Joseph Gold, President of GGG Corp, states the new line of GGG Wiper blades meet OEM specifications and is suitable for most vehicles. The high quality natural rubber is appropriate for all season performance.

“GGG Wiper blades are a great opportunity to increase profits with every windshield installation” adds Martin Bobinger, General Manager of GGG Corp. The new line of wiper blades are available in the unique GGG packaging as a point of sale display item and will only be available to the auto glass industry. A self-contained refillable display unit containing an array of sizes is also available.

GGG *the* trusted name in mouldings and sensors is also *the* trusted name in wiper blades.
